Profile Summary

Motivated second-year B.Tech student specializing in **Artificial Intelligence and Machine Learning**, with strong interest in **Web Development** and problem-solving. Experienced in building responsive web applications using **React and JavaScript**, and developing data-driven logic using **Python**. Actively strengthening **Data Structures and Algorithms** skills in Java through consistent practice and project-based learning.

Education

Bachelor of Technology (B.Tech)

2023 – Present

Artificial Intelligence & Machine Learning

CGPA: **8+** (First Year)

Class XII (Senior Secondary)

Percentage: **75%**

Class X (Secondary)

Percentage: **80%**

Technical Skills

- **Frontend:** HTML, CSS, JavaScript (ES6+), React
- **Programming Languages:** Python, Java
- **Machine Learning:** NumPy, Pandas, Data Cleaning, Feature Engineering (learning)
- **Problem Solving:** Data Structures and Algorithms (Arrays, Strings, Recursion, Sorting)
- **Tools:** Git, GitHub, VS Code

Projects

AI Movie Recommendation System

Python, Machine Learning, Pandas, NumPy

- Developed a content-based movie recommendation system using cosine similarity algorithms.
- Implemented data preprocessing, feature extraction, and recommendation logic using Pandas and NumPy.
- Built scalable and modular Python architecture for efficient recommendation handling.
- Improved understanding of recommendation engines and machine learning workflows.

AI File Sharing Website

React.js, JavaScript, Firebase

- Built a modern file-sharing platform allowing users to upload and share files securely.

- Designed responsive frontend interfaces with optimized user experience.
 - Implemented real-time file handling and sharing logic.
 - Focused on scalable UI architecture and performance optimization.
-

Client Portfolio Websites

React.js, JavaScript, CSS

- Developed professional portfolio websites for clients with responsive and modern UI designs.
 - Created reusable React components and optimized layouts for cross-device compatibility.
 - Worked on custom animations, smooth scrolling, and user-focused interfaces.
 - Improved website performance and accessibility standards.
-

Personal Portfolio Website

React.js, JavaScript, CSS

- Built a fully responsive personal developer portfolio showcasing projects and technical skills.
 - Implemented interactive UI animations and clean modern design principles.
 - Integrated reusable components and optimized frontend performance.
-

Home Tutorial Website

HTML, CSS, JavaScript

- Designed an educational platform interface for online tutorials and learning resources.
 - Focused on clean UI structure, accessibility, and responsive layouts.
-

Parallax Scrolling Website

HTML, CSS, JavaScript

- Created an interactive parallax website with layered scrolling effects and smooth animations.
 - Enhanced user engagement through creative frontend design techniques.
-

Certifications

- IBM Artificial Intelligence Course Certification
 - Power BI Certification
 - Prompt Engineering Certification
-

Experience & Freelance Work

Freelance Web Developer

- **Worked on real-world client projects including portfolio websites and responsive web applications.**
 - **Collaborated with clients to understand requirements and deliver customized solutions.**
 - **Gained practical experience in frontend development, UI/UX design, and project deployment.**
-

Interests

- **Artificial Intelligence**
- **Machine Learning**
- **Full-Stack Web Development**
- **Competitive Programming**
- **Building Real-World Projects**
- **AI Tools & Automation**
- **Open Source Development**
